Rank Advancements

The Handler/Dog Team skills must be completed with each dog. In order to compete, an exhibitor must turn in AT LEAST a Level 2 rank advancement form that has been completed and the skills passed off with the dog they plan to show. No exceptions. This is our form of verification.

If an exhibitor gets a new project dog, the Handler/Dog Team skill requirements must be passed off again. The Mastery and Citizenship categories do not need to be completed again.

For example, Susie achieved a level 4 rank with her old dog Spot. Her parents got her a puppy (Clover) for her birthday. In order to be considered a Level 4 Rank with Clover, Susie has to pass off the handler/dog team skills for Levels 1 and 2. However, the requirements for Mastery & Education and Citizenship & Personal Development will count towards the ranks with her new puppy. For her Handler/Dog Team Skill requirements, Susie passes off all of the Level 1 and Level 2 skills at the same time and begins working on the skills required for a Level 3 and 4 ranks.

These ranks are designed as benchmarks for participants. Some exhibitors will not be able to obtain all the ranks, and some exhibitors may pass off the highest level as a 9th grader. An exhibitor that started at 8 years old could have 10 years to complete all 5 ranks, and may seem to have the advantage. However, the skills get progressively harder and it would be difficult for anyone to do that. They are designed to build on each other over the entire experience. Also keep in mind that the skills are passed off again if the exhibitor gets a new project dog.

Rank Advancement Level 1

This rank covers the very basics of handling a dog and being safe and successful with a pet in the home. This rank should be easily achieved by all ages, including youth who are not yet 8.
